Summary

Computer Science student with a strong foundation in programming, algorithms, and web development. Passionate about software development, problem-solving, and creating efficient solutions. Eager to apply technical skills in an entry-level software engineering or development role.

Education

Charleston Southern University

B.S. Computer Science | Expected December 2025

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management, Software Engineering

Technical Skills

- **Languages:** Java, Python, C++, JavaScript
- **Web Development:** HTML, CSS, React.js
- **Databases:** SQL
- **Tools & Platforms:** Git, GitHub, AWS, Google Cloud
- **Other:** Data Structures & Algorithms, Software Testing, Cybersecurity

Projects

- **Sort-Time Analyzer - C++ Project**
  - Developed a C++ program to benchmark sorting algorithms (QuickSort, MergeSort, BubbleSort), analyzing execution times.
  - Stored results in CSV format for further analysis, demonstrating file handling and data logging.
  - Optimized algorithm execution using efficient memory management and time complexity analysis.

Work Experience

QSR Manager – Cookout (Jan 2024 - Aug 2024)

- Led a team of 15+ employees, enhancing collaboration and operational efficiency.
- Managed scheduling, inventory, and payroll adjustments, improving cost efficiency.

Fulfillment Associate – Amazon (March 2021 - Aug 2023)

- Processed 300+ packages per hour with a 98.99% accuracy rate.
- Worked in a high-pressure warehouse setting, meeting strict deadlines.
